### **Daughter of the King** (Women's Class).

As believers when we are chosen by God, He calls us by name; we begin a new life in Him; we become part of God's family and become citizens in heaven. In this study we will look at what it means to be adopted into God's family... what it means to be called a daughter of the King.

Location: S242 at 6pm

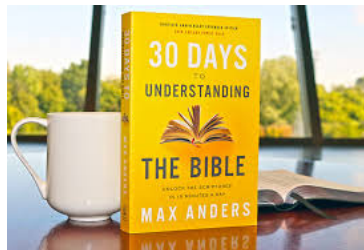

### **Bride of Christ (Women's Class).**

The ancient rituals associated with this custom are rich in spiritual truths and remind us of our covenant with Christ and His love for us. There is someone out there that loves you unconditionally and that someone is God Himself. This study will take a closer look at our covenant relationship with God as illustrated by the Jewish Wedding Ceremony. We will see firsthand the love that God has for us and how He has chosen us as His bride.

## Winter Workshops

### **Alzheimer's: Hope for Healing, Here and Now**

Teacher: Mike Duncan

Overview: An Alzheimer's Disease diagnosis strikes fear and hopelessness in the hearts of just about everyone. Traditional medicine only offers medications that MAY slow the progression in some cases, but the long-term prognosis isn't favorable.

When Mike Duncan received his initial mild cognitive impairment diagnosis (a possible precursor to Alzheimer's) and a six-month waiting list to see a local dementia specialist, he began praying, researching, and talking with medical providers. Knowing he was facing a possible Alzheimer's diagnosis, he was deeply motivated to investigate every option, eventually leading him to a specific protocol with which he has experienced tremendous results, including a significant reversal of cognitive decline.

The story of how God opened doors to navigate through some difficult logistics to bring various medical providers into Mike's path is amazing in itself. After receiving the dreaded Alzheimer's diagnosis this past October, Mike determined the opportunity would not be wasted and instead used to help others learn how to start their journey toward hope and healing, here and now. This seminar is not Mike's story but God's story, working through Mike's life.

Date: Sunday, January 12, 6pm
